

GP ACCESS FUND PROJECT 2017

SEOX

The SE Oxfordshire GP
Federation

As part of the Government's pledge to provide 7 day care, NHS England have proposed a pilot scheme which will provide additional access to patients during evenings and at weekends.

The GP practices across South East Oxfordshire will be working as a collective to provide these additional routine, pre-bookable appointments each week.

PLEASE NOTE : These appointments will be aimed at routine GP care and will NOT replace the current urgent 111 service. If you require an urgent GP appointment when your surgery is closed then you still need to call 111. This service is NOT for emergencies or walk-in appointments and you will be directed to call NHS 111 in these cases.

Improving access to routine GP appointments throughout South East Oxfordshire

Each surgery will be providing services at different times and on different days; however you will be able to book into an available slot at ANY of the participating surgeries.

With your consent the clinician who sees you will have access to your private medical record.

Please note that if you feel an onward referral to a specialist or any further investigations may be required, then it may be better to arrange an appointment with your own doctor; however, this is not essential.

To book an appointment- simply call your surgery and speak to a receptionist.
